2 1/2 years. Young bitch who needs more typical breedmarks for Labrador. Many more will help. Very light bones, narrow body. Nice head profile but too narrow. Can bite. Nice dark eyes. Nice neck. Too straight in front and needs better ang behind. Smart feet. Too steep in croup. Trim tail. Very happy mover. Loose in elbows. Enough reach - close. Needs better topline. Needs time to develop. Lovely active fems.
